

Sky Factory eScape™ 2.0 Digital Cinema

DC-eScape-4123 Specifications

Overview

Ultra High Definition (UHD) video screen imbedded in a wall mounted frame
Screen surface recessed in window frame evokes a sense of depth and enhances the architectural realism of dynamic landscapes

Video Content

8 hours standard* of long form, real time, continuous 4K UHD (3840 x 2160) and Full HD (1920 x 1080) videos played on a 4K Ultra HD monitor in 3840 x 2160
Videos range from 45 to 110 minutes with no loops, jump-cuts, or accelerated motion
Plug in module allows for changing or adding additional content with no data network needed, providing reliable and secure use
Video captured with 4K RED One or RED Epic camera
* Longer play times available

Monitor:

49" (1245mm) Professional LED Edgelit LCD Monitor
Resolution: Ultra High Definition 3840 x 2160

Mounting Pan with Integrated Video Playback Equipment:

Mounting Pan
16 gauge steel, powder coated silver
Provides one location for all playback equipment
Protects eScape monitor and video playback equipment, facilitates wiring, and provides ventilation for proper cooling
Rough opening: call the Sky Factory for specific requirements
Requires wire access from top during rough-in for power and signal cable to controller
Junction box with 1/2" (22mm) trade size knock-outs; where conduit is specified, flexible will be required
Video-audio playback equipment
Simple plug-in module for additional content

Wall Mounted Controller

Wired via Cat 6 cable
Simple illuminated push button operation
Fits in single gang outlet box
Low voltage mounting bracket provided
Keypad bezel available in white, almond or black
Standard Decora style faceplate available in white, almond, black or stainless steel
Other faceplate options available from Leviton

Cabling:

One plenum rated Cat 6 cable
Monitor location to wall mounted controller
Ends terminated with RJ45 connectors
35' (15.3m) standard, alternate lengths available if specified

Trim:

Wood or brushed anodized clear aluminum (style and material selected by client)
Sizes vary with style and material selection
30 1/2" (775mm) to 33" (838mm) wide
49 1/16" (1246mm) to 52 1/16" (1333mm) high
7/16" (11mm) to 2" (51mm) deep from wall surface

Electrical Requirements:

Input: 100-240V AC, 50-60Hz
Total Power Consumption: 217 Watts
Circuit Recommendations: a separate circuit is advisable
Power Surge Protection: recommended, but not provided
Operating Temperature: 32F ~ 104F (0C ~ 40C)
Operating Humidity: 10% ~ 80 % non-condensing

Warranty:

2 year Sky Factory, Inc. limited warranty on entire system

eScape™

**Recessed Wall Mount
Ultra High Definition (UHD)
Digital Cinema Virtual Window**

Viewable Area:

approx. 41" x 23" (1041mm x 584mm)
depending on trim selection
